Partnerships for the goals

17 PARTNERSHIPS FOR THE GOALS

17 PARTNERSHIPS FOR THE GOALS

WHAT IS THE GOAL HERE?

To revitalize the global partnership for sustainable development.

WHY?

In 2015, world leaders adopted the 2030 Agenda for Sustainable Development that aims to end poverty, tackle inequalities and combat climate change. We need everyone to come together — governments, civil society, scientists, academia and the private sector — to achieve the sustainable development goals.

17 PARTNERSHIPS FOR THE GOALS

Greater effort is needed to align development cooperation with country-defined development priorities and results, particularly in fragile countries

FURTHER DEVELOP MEASUREMENTS OF PROGRESS

Finance

17.1 Strengthen domestic resource mobilization, including through international support to developing countries, to improve domestic capacity for tax and other revenue collection

17.2 Developed countries to implement fully their official development assistance commitments, including the commitment by many developed countries to achieve the target of 0.7 per cent of ODA/GNI to developing countries and 0.15 to 0.20 percent of ODA/GNI to least developed countries ODA providers are encouraged to consider setting a target to provide at least 0.20 percent of ODA/GNI to least developed countries

17.3 Mobilize additional financial resources for developing countries from multiple sources

17.4 Assist developing countries in attaining long-term debt sustainability through coordinated policies aimed at fostering debt financing, debt relief and debt restructuring, as appropriate, and address the external debt of highly indebted poor countries to reduce debt distress

17.5 Adopt and implement investment promotion regimes for least developed countries

Technology

17.6 Enhance North-South, South-South and triangular regional and international cooperation on and access to science, technology and innovation and enhance knowledge sharing on mutually agreed terms, including through improved coordination among existing mechanisms, in particular at the United Nations level, and through a global technology facilitation mechanism

17.7 Promote the development, transfer, dissemination and diffusion of environmentally sound technologies to developing countries on favourable terms, including on concessional and preferential terms, as mutually agreed

17.8 Fully operationalize the technology bank and science, technology and innovation capacity-building mechanism for least developed countries by 2017 and enhance the use of enabling technology, in particular information and communications technology

Capacity building

17.9 Enhance international support for implementing effective and targeted capacity-building in developing countries to support national plans to implement all the sustainable development goals, including through North-South, South-South and triangular cooperation

Trade

17.10 Promote a universal, rules-based, open, non-discriminatory and equitable multilateral trading system under the World Trade Organization, including through the conclusion of negotiations under its Doha Development Agenda

17.11 Significantly increase the exports of developing countries, in particular with a view to doubling the least developed countries' share of global exports by 2020

17.12 Realize timely implementation of duty-free and quota-free market access on a lasting basis for all least developed countries, consistent with World Trade Organization decisions, including by ensuring that preferential rules of origin applicable to imports from least developed countries are transparent and simple, and contribute to facilitating market access

Systemic issues

Policy and institutional coherence

17.13 Enhance global macroeconomic stability, including through policy coordination and policy coherence

17.14 Enhance policy coherence for sustainable development

17.15 Respect each country's policy space and leadership to establish and implement policies for poverty eradication and sustainable development

Multi-stakeholder partnerships

17.16 Enhance the global partnership for sustainable development, complemented by multi-stakeholder partnerships that mobilize and share knowledge, expertise, technology and financial resources, to support the achievement of the sustainable development goals in all countries, in particular developing countries

17.17 Encourage and promote effective public, public-private and civil society partnerships, building on the experience and resourcing strategies of partnerships

Data, monitoring and accountability

17.18 By 2020, enhance capacity-building support to developing countries, including for least developed countries and small island developing States, to increase significantly the availability of high-quality, timely and reliable data disaggregated by income, gender, age, race, ethnicity, migratory status, disability, geographic location and other characteristics relevant in national contexts

17.19 By 2030, build on existing initiatives to develop measurements of progress on sustainable development that complement gross domestic product, and support statistical capacity-building in developing countries

Partnership for the goal 2015-2019 Output, Impact, Collaboration

Research supporting SDG17 has grown since 2015, with a **compound annual growth rate of 11.9%**, compared to nearly 2.5% for research in all fields.

For this data, more research is needed on SDG17. Research output, at 229 total publications, was the lowest among all the SDGs, and nearly 100% lower than SDG1 which had the highest output with more than three million total publications.

In order to advance the SDGs, partnerships are vital. They can help scale ambition and complement the strengths of respective partners, providing new perspectives on challenges. Prospective partners may have specialist sector knowledge, on the ground expertise, and/or provide access to key stakeholders which one partner does not have. Transparency is critical and partners should be clear about expectations and engage frequently.

A key RELX partner on the SDGs is the United Nations Global Compact (UNGC) which brings UNGC signatories together with civil society partners to plan projects and develop tools and guidance that can help all companies increase their SDG performance. We support the UNGC SDG8 Action Platform – Decent Work and Economic Growth – which helps business address important SDG8 targets such as 8.7. Take immediate and effective measures to eradicate forced labour, and modern slavery and human trafficking and secure the prohibition and elimination of the worst forms of child labour.

The UNGC is a partner, along with Global Citizen, the Ban Ki-Moon Centre for Global Citizens, and the Responsible Media Forum on RELX.

This analysis builds on Elsevier's Sustainability Science as a Global Knowledge report, which was released in 2015 to coincide with the launch of the SDGs. See a 2017 update on the findings on the RELX SDG Resource Centre. Click here to review the research. See the methodology and definitions.
